SUBLIMATED MASKS

As Low As \$4.17(c)
Min 150

These imported masks are made from a multi layered polyester for optimal breathability. The outer layer is water repellent to help prevent pathogen penetration, and the mask itself is treated with Anti Microbial technology to help kill 99% of bacteria!

Even better? These masks have an amazing fit thanks to a fitted flexible nose strip(for a more fitted seal) and adjustable ear toggles for the right amount of comfort. And last but not least these are reusable and washable!
